### PROFESSIONAL EXPERIENCE

---

#### Deloitte, Midrand, South Africa, November 2022 – Current

##### Position: Lead Cloud Infrastructure Engineer

- Server (Windows and Linux) Lift-and-Shift Migration for Goldfields Mining into **AWS**. Currently in the process of creating a migration and modernization roadmap for SQL databases hosted in AWS, to be moved into RDS
- **FinOps Consultant** for MTN CcoE: Conducted Cost Assessment for Azure Kubernetes and provided assistance in driving costs down, based on usage and performance.
- **Infrastructure Stream Lead**: Led a comprehensive architectural review of Debswana Mine's Azure infrastructure against the 5 pillars of the Azure Well-Architected Framework: identifying vulnerabilities and presenting actionable recommendations to client, covering security, optimization of resource allocation and Improved cost efficiency.
- **Cloud Architect and Developer**: Co-led a cloud infrastructure stream (team of 4) to provision a Customer Data Platform (CDP) on Google Cloud Platform. I spearheaded key tasks: completing the ARB 1 & 2 Toolkit, architecting the CDP solution, and provisioning Google Cloud Artefacts using Terraform. Additionally, I maintained consistent communication with the client through regular stream updates.
- **Data Migration**: Collaborated in a team of four in a lift-and-shift data migration project using **Azure Synapse Studio** and **SQL Server Management Studio**.
- **Technical Leadership**: Acted as a **Subject Matter Expert (SME)** for Azure cloud engineering, guiding teams on best practices and ensuring alignment with client standards.
- **Developer**: Developed **CRUD Operations** in SQL and configured APIs using **.NET** for Project Levvia
- **Talent Acquisition**: Participated in developer interviews, contributing to the Recruitment of skilled team members.

#### BMW IT Hub, Pretoria, South Africa, July 2023 – February 2025

##### Position: Advanced Azure Developer

- Maintained a complex Azure environment for a predictive maintenance project, ensuring high availability and optimal performance for critical automotive shopfloor applications and updated architecture and terraform code for components like SEW DriveRadar security updates.
- Provisioned and managed Azure cloud resources using **Terraform**.
- Deployed applications via **CI/CD pipelines** in Azure DevOps.
- Spearheaded and documented **AzureRM** and **Terraform** version upgrade for DEV,QA and Production Environment.
- Optimized **Azure Data Explorer (KQL)** queries and migrated them to **PostgreSQL** which resulted in significant cost reductions based on usage and performance optimization.
- Renewed and manage **SSL Certificates** using Cards System, ensuring secure communication across applications.
- Collaborated with cross-functional teams to troubleshoot and resolve issues in **Splunk** and other monitoring tools.
- Debugging an application (BMW ImageViewer) in Docker.
- Ensuring Azure Environment Security Score was above 75% and implemented BMW Wiz Security Recommendations.

**First Technology Digital, Midrand, South Africa, January 2020 – October 2022**

**Position: Intermediate Software Developer**

- Developed and maintained **K2 applications** for enterprise clients, managing environments across **Dev, QA, and Production**.
- Designed and implemented custom **Nintex Connectors** in JSON format, ensuring seamless integration with client systems.
- Enhanced internal systems using **Angular, MVC, and Microsoft SQL**, improving data accuracy and user experience.
- Customized **Dynamics 365** environments to meet business needs, including role-based access control and entity customization.

## **EDUCATION & PROFESSIONAL CERTIFICATIONS**

---

**Bachelor of Computing (Honours): Software Engineering**

*Belgium Campus ITversity*

*NQF Level 8*

**Business Administration & Management (CBAM)**

*The Business School of South Africa*

*NQF Level 4*

**HashiCorp:**

- Terraform Associate HCTA0-003

**AWS:**

- AWS Certified Solutions Architect – Associate
- AWS Certified DevOps Engineer – Professional

**Microsoft Azure:**

- Azure Solutions Architect Expert (AZ-305)
- Azure DevOps Engineer Expert (AZ-400)
- Azure Developer Associate (AZ-204)
- Azure Administrator Associate (AZ-104)
- Azure Fundamentals (AZ-900)

**Google Cloud Platform (GCP):**

- Google Cloud Certified Professional Cloud Architect
- Google Cloud Certified Professional Cloud DevOps Engineer
- Google Cloud Certified Associate Cloud Engineer

**Other:**

- Scaled Agile Framework (SAFe 6 Practitioner)
- Microsoft Dynamics 365 Fundamentals
- Nintex RPA Expert, Nintex Process Automation Expert

## **VOLUNTEERING EXPERIENCE & ACHIEVEMENTS**

---

Volunteering Centre: Afrika Tikkun

Role: Facilitator & Organizer

Location: Johannesburg and Diepsloot

Year: 2023, 2024 & 2025 (Participant)

## ACHIEVEMENTS

- **2024** Sub Product Owner (**BMW: Predima Americas**)
- **2023** Cloud Infrastructure Stream Lead (**Deloitte**)
- **2021** Empire Partner Foundation Hackathon Winner
- **2019** President of The Student Representative Counsel
- **2019** Student Ambassador
- **2018** Student Relation Board Member
- **2017** SRC Member

---

## HOBBIES:

Reading personal development books, mountain biking, playing & watching rugby, traveling.

## TRAITS:

Adaptive, goal-driven, team player, passionate about problem-solving and self-development.
